

# The Cat Tale

**The Official Publication of the Jaguar Club of Tulsa**

## Time to VOTE!

Yes, we are all sick of hearing about elections ad nauseum, but this election really means something! Our board members serve 2 year terms and they really do work to make sure we have fun events for our members to take part in.

So pry that staple out of the enclosed card and take a moment to mark it and drop it in the mail. There is already a stamp on it so you don't even have to

worry about that.

And that part about the questions and comments at the bottom? Yes, the board members do read those comments and it helps to guide them for planning the next years events. So tell them what you think, members! These elected officials really do pay attention to what the constituents want!

## BREAKFAST Nov 2 and Dec 7

Just two more "First Saturdays" left in this year. WoW!, how the time does fly on by! So plan to be at **Bechwood's in the Wyndham Hotel, 10918 E 41st St, Tulsa** on the first Saturday of each month.

These "First Saturday" breakfast get-togethers will also give you 2 opportunities to deliver your contribution of Socks and Underwear for our Christmas gift to the Tulsa Day Center for the homeless.

## ABOUT THOSE SOCKS AND UNDERWEAR...

For few years the club has made a donation of socks and underwear to the Tulsa Day Center. Last year the Center provided service to 140,142 people and that includes a number of children. Their numbers also include about 7% veterans. The goal of the Center's services is to get these people off the street and help them return to being self reliant members of the community.

If you look at their web site at [tulsadaycenter.org](http://tulsadaycenter.org) you will also see a list of items to donate. At the top of that list is desperately needed underwear for men and women.

So here is your chance to pass on some Christmas cheer. Bring those Socks and Underwear! Any size, Men's, Women's and children. Santa will certainly put your name on the "nice" list!

## November event moved to December!

Sometimes things happen beyond our control and we have to make a last minute change. That's the story with our November trip to a restoration shop. The Hot Rod Shop in Sand Springs is doing some remolding and will not be finished until the first of December so we have rescheduled to

**December 7th  
10:30 am**

## Tour of the Hot Rod Shop

First, this is not purely a hot rod shop as they do body restoration and repair on a wide variety of classic and specialty autos and some of our members have recently had work done in this shop.

Second, we are doing this tour after our 1st Saturday breakfast in December. We hope everyone will come to breakfast and then on the tour, but if you can only make the tour the address is 1202A Keystone Expressway in Sand Springs.

The directions are: Exit off highway 412 on to 128 W Ave.

Turn left on to W 4th

Turn left onto first street and onto the connector

Turn left on W 11th

Turn right onto Wellston Park Road

Those directions sound a bit weird but that is what Siri says. The shop is just west of the Sand Springs Park, which has a pretty big sign.

## CHRISTMAS PARTY! Saturday-December 14th 6:00 pm

The Larson's, **Glenn and Carol** have once again graciously opened their home for the club's Christmas gathering.

To add to the festivities, we would like to have members bring an hors d'oeuvre to share along with the shrimp and drinks that will be provided by the club.

Please **RSVP** to the Larson's at [lar-songc@cox.net](mailto:lar-songc@cox.net) or 918-298-2566 by Dec 12 Glenn and Carol live at 10644 S 66th E Ave. in Tulsa.

If you have not attended a club event in a while or you are a new member, we hope you will take this opportunity of come and meet the members of the club and enjoy a memorable evening.

## A "Cool" or You Did What?" kind of story

By Clark Frayser

This past Labor Day, Les and I were at the huge car show at Lime Rock Park in Connecticut. The 1959 Kellison didn't "fit" too many classes. They had a hard time picking a class in the short time from finding out that the '33 Plymouth wasn't coming, and that the Kellison was taking it's place. It was a race car, but it was several other things too, right?

The hot rod guys grumbled under their breath a good part of the day, but what they didn't know or care was that our entry meant that the class would make at all.

Right down the main straight form us was this E-type coupe. I did a double take because it seemed very nice and at the same time seemed way off.

Now, this car show went on all around the 2 1/2 mile track, but I kept coming back to this bright red E-type. The proportions

were off. I mean it was a beautiful coupe, and finished just like it should be...but?

Turns out this is a East Coast custom. The owner had taken a '71 Jaguar and had his way with it. You will notice the rear end has Series I tail lights and it is wider than you remember. And it is lower! Almost 4 inches lower. This Jag coupe had been chopped! It was hard to wrap my brain around because all the trim and chrome looked perfect-factory. He even had to have a custom windscreen because of the height and rake!

There was so much done to this '71 coupe, but it was unmistakably a Jag coupe.

So, gentle readers: what's our opinion? Do you love it? Or Leave it?

## Fayetteville Show

By Linda Young

The British Iron group of NW Arkansas had a beautiful day for their annual all British show and the Brits did show up! The last count I heard was 171 cars. The Agra Park was certainly filled up with beautiful, unique and interesting cars.

There were several Austin Healy's there and the best looking one belongs to our club member Richard Salamon.

There were some fine examples of "other British" like this MG Arnolt (left) and a very cheeky Morgan tri wheel (below)

**Richard Crump**, a former JCTI member who now lives in Enid, OK, was there with his recently completed XKE which was quite beautiful. Richard plans to show the car in some JCNA shows next year.

(cont'd on page 3)

There were 9 XKE's there if I remember correctly, and there were 9 or ten XJS in a nice long line. Just by coincidence, 3 champagne colored XJS's were side by side at the end of the line. Of course Snazzy 1 looked the best!

Once again the Arkansas group put on a spectacular show. Will they be able to outdo themselves next year? Guess will have to go and see!

### Gear Grabbers By Stuart Barrett

The year is rapidly coming to an end, the seasons have shifted, and the opportunity to acquire new additions for the garage is upon us. Without further ado, here are a few suggestions to make that car lover in your life merry and bright in the new year:

#### The Treasure Toter:

As the saying goes, there's no such thing as "too big of a garage." If space is a bit tight, and you're looking for another place to put some tools, take a look at the Milwaukee Packout Storage System (\$280). Constructed with Impact Resistant Polymers, stack and lock features, Interior organization trays, and rugged wheels for easy portability, this box will make anyone's life better. With an IP65 Rated Weather Seal, it's ready for rainy track day conditions keeping contents drier than you'll be. It also makes a great detailing gear tote!

#### Do You See What I See?

Shine a little light on the matter with the Scangrip I-

MATCH 2 headlamp (\$90). This headlamp features the world's only color-corrective 2 color light function. This provides you with the option to choose between 2 different color temperatures depending on the type of job to be carried out. Warm light (4500K) and cold light

(6500K) 2-lumen output options, 50% or 100%; 6hr run time, rechargeable lithium battery. In sensor mode the light can easily be switched on/off, even when wearing gloves. Simply wave your hand in front of the lamp, you will switch on the light when needed. If you're in need of more lighting, checkout their sets of professional work lights.

#### Hose Side Are You On!?

Speed Master Detail Guardz (\$25) are an ingenious approach to working around your vehicle without being hindered by the always infuriating hose and cord jams around tires. The

roller framework allows the ease of movement around the vehicle saving you time and headaches. These instruments have a locking system that instantly grips onto the tire to keep it immovable during use. Rapidly slide the Detail Guardz underneath your tires and disregard your hoses or cords getting captured.

#### Throw In The Towel(s):

Remember the last time you were wrapped in a premium bath towel? Yes, both you and your vehicle will enjoy the suppleness of The Rag Company's Eagle Edgeless 350 microfiber towel (5/\$20). The Eagle Edgeless is probably the best multi-purpose detailing towel available for the money. Use the different weights and colors available to minimize the risk of cross-contamination and assign a specific color to a specific purpose. Recently selected by the Huntington Beach Concours d' Elegance as the towel of choice for all participants. Be sure to checkout their Eagle 365 for your bright work needs.

#### Wheel, Wheel, Wheel...

Knockout winter wheel dirt and contaminants with this one two punch of Sonax Wheel Cleaner Plus (\$20) and the Speed Master Wheel Brush (\$30). The wheel cleaner is the latest formulation for fast and effective removal of stubborn brake dust and road grime. Sprays on clear and turns red almost instantly as it begins to work. Because it is acid-free, Sonax Wheel Cleaner Plus is safe for use on all wheel types and will not damage or corrode wheel bolts. Agitate the cleaner with Speed Masters Wheel Brush and you'll be able to reach behind the wheel, behind the spokes, and even the caliper. The bristles are slightly feathered on the ends to gently clean delicate wheel finishes, such as coated or plated wheels, without scratching. Give those clean shoes a spritz of Sonax Rim Shield (\$20) for easier maintaining until spring.

#### Keep The Grit Out Of Your Mitt:

The Grit Guard Insert (\$10) fits in the bottom of your wash bucket and separates contaminants from the mitt! The insert's radial surface design extracts particles, providing a clean, scratch-free wash mitt every time you go back to the bucket for water. All of the potentially harmful dirt settles in the bottom of the bucket, keeping it out of your mitt and off of your paint. This simple and cost effective method protects your precious painted surfaces from being scratched and saves your paint from swirl marks and scratches. (cont'd on page 4)

Fits most 5 gallon buckets.  
Pro tip, use two per bucket!  
(Complete system shown,  
\$120)

Baby, It's Cold Outside:

Keep those Christmas sweaters clean this winter and stay warm in pair of Dickies' Deluxe Blended Long Sleeve Coveralls (\$45). Roomy coverall built for utility, efficiency and easy care (no matter how greasy or grimy the job.) Durable, yet breathable material that resists fading, wrinkles and stains. Heavy-duty brass zippers secure pockets and there's a two-way front brass zipper with concealed snaps from neck to waist. There are handy dual tool pockets on right leg too. Swing by a uniform shop and have them slap your name on the chest for extra style points in your garage.

A NEW CAR!....Sort of:

In their quest for supreme accuracy and authenticity, Amalgam Collection (\$\$\$ varies) goes to great lengths to locate the best examples of original cars and digitally scan them to capture the precise shape and proportions of every part of the car including the chassis, engine and drive train. They also take countless photographs of every aspect and detail of each car in order to completely understand the finishes and detailing. Amalgam is the only maker of model cars that can be considered alongside a maker of fine watches like Richard Mille, a patron who recognized a shared passion for engineering detail and has commis-

sioned unique models of a number of superb cars in his collection.

In recent years, Amalgam Collection has collaborated with Ralph Lauren to create models of the cars in his collection, available exclusively from his flagship stores worldwide. Amalgam Collection now occupies a unique place in the history resulting in models that beautifully and precisely capture the entirety of the original.

There you have it, the tip of the iceberg... Honestly, I love learning and experiencing new tools, accessories, storage, apparel and could have taken the entire newsletter to share what I have discovered just this year alone. If you would like a suggestion on something perhaps I did not mention in this installment, please contact me and I would be happy to share my thoughts or recommendations with you. I want to thank each and every reader who has taken the time to read my collection of thoughts, shared ideas, and/or reached out to me for further insight on a particular subject. I wish you all well in the coming holiday season, and look forward to a New Year celebrating our love and passion for automobiles together!

## Jag Swag For Christmas

By Linda Young

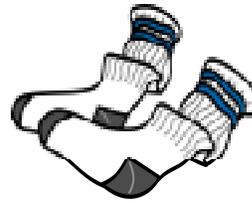

Since we are on the topic of shopping; Christmas is less than 60 days away and time for you to get busy!. In addition to those packs of socks and underwear, you may be looking for something uniquely Jaguar for your spouse or significant other. Here are a few suggestions.

Our local dealer, Jaguar Land Rover Tulsa on S. Memorial has a nice selection of shirts and some other items right now, but they won't last long so if this is what you have in mind, don't tarry until the last minute or you could be out of luck!

If you are the person who shops at 1:00 AM on the internet, go to [www.jaguarusa.com](http://www.jaguarusa.com) and click on the "shopping tools" tab and then the "merchandise shop" and presto, you are there! Lots of gifts for everyone in the family (except maybe the dog). Items are broken down into categories of "men's", "women's", "gifts", and more at the bottom of the page. In addition to a great selection of Jaguar branded items, they are also having a sale on some close out items so you could possibly snag a real deal!

Still not sure what to buy that special person? Books are always a safe bet and there are hundreds of great books about Jaguar available on (where else?) Amazon. Want a book tilted a little more to automotive history? Go for "Are We There Yet? The American Automobile Past, Present and Driverless". An in depth, informative and entertaining look at the American auto industry and how it shaped our country and what the future may bring.

Time is ticking forward so hurry and get that shopping done. Just don't forget the **Socks and Underwear!**

## ELEANOR Returns

*Eds. Note: This item appeared in the 10/25/2019 addition of the Tulsa World.*

Good news for car movie buffs, Tulsa based Brand New Muscle Car has been granted a license to build official ELEANOR Star Cars by Denice Halicki, producer of the 2000 movie "Gone in 60 Seconds,"

Brand New Muscle Car has new 1967 ELEANOR's available and the company also can build customized models, The car is priced starting at \$199,995.

"We love Eleanor. She has captured everyone's heart with her allure and amazing one-of-kind looks" said David Miller, president of Brand New Muscle Car in a news release.  
<https://www.brandnewmusclecar.com/> 7656 E. 46th Street  
Tulsa, OK 74145.

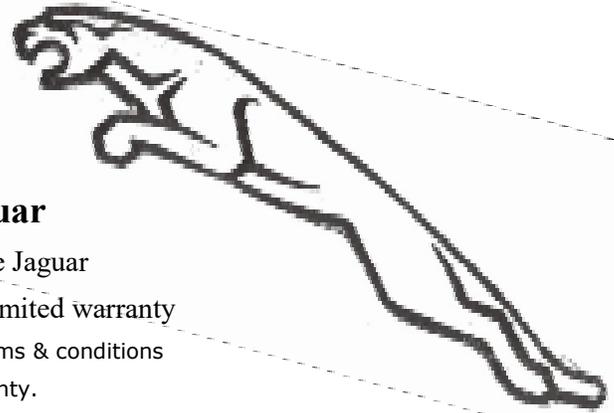

Hot Wheels were introduced in 1968 and there have been 6 Billion made and counting.

Anyone who knows me, knows that I am a racing fan. I recently checked one "have to see" track off my life list at Talladega, AL. I am not sure I can convey the immensity of this high speed track, but I will try. It is a 2.66 mile tri-oval with a large portion of it banked at 30°. Stand at the finish line and look either way; this track is BIG.

NASCAR always makes it easy for fans to have access to the drivers and cars.

The roar is deafening when the green flag drops and cars accelerate to 180 – 200 MPH.

And there is no telling what you will see.

Displays of past winners cars were plentiful like this car driven by past champion "Awesome Bill from Dawsonville" Elliot.

What could be more fun than sharing a trip like this with your friends. Don and Sandy McArthur, Greg and Sharon Timo and Scott and Linda Young

The atmosphere is like The county fair and a circus all rolled into one. Thousands of campers created instant villages and parties moved from one tail gate to another. This is a big family affair and all your weird relatives are there.

Brad Kesowski was not having a good day and finally left the race a DNF.
